

Aqua Glaze - Gutter Cleaning Risk Assessment

General Information

Company Name: Aqua Glaze Exterior Cleaning

Assessment Date: 16 / 03 / 2025

Reviewed By: Liam Walker

Location: Various residential and commercial properties in Telford and surrounding areas

Hazard	Potential Risks	Control Measures
Working at Height	Falls from ladders, injuries, fatalities	
		Use secured ladders or extendable poles. Ensure stable ground before working.
Slippery/Uneven Surfaces	Risk of slips, trips, falls	
		Assess ground conditions. Wear slip-resistant footwear.
Manual Handling	Back strain, muscle injuries	
		Use proper lifting techniques when handling heavy debris.
Falling Debris	Injury to workers, pedestrians, property damage	
		Use protective covers below work areas. Wear safety goggles.
Water & Electrical Hazards	Electrocution risk near electrical wiring	
		Avoid spraying water near exposed electrical sockets and wires.
Weather Conditions	Wind or rain increasing risk of accidents	
		Postpone work in unsafe weather conditions.

Review & Updates

- This risk assessment should be reviewed annually or after any incident occurs.
- Any new hazards or risks will be updated with additional control measures.
- Staff must be trained on updated safety procedures and risk control policies.
