

Aqua Glaze - Patio & Pressure Washing Risk Assessment

General Information

Company Name: Aqua Glaze Exterior Cleaning

Assessment Date: 16 / 03 / 2025

Reviewed By: Liam Walker

Location: Various residential and commercial properties in Telford and surrounding areas

Hazard	Potential Risks	Control Measures
Slips & Trips	Risk of slipping on wet surfaces	
		Use slip-resistant footwear. Apply safety cones in commercial settings.
High-Pressure Equipment	Injury from pressure washer spray	
		Use pressure washers correctly. Avoid directing spray at people or fragile surfaces.
Flying Debris	Loose dirt or stones causing injury or damage	
		Wear protective goggles. Clear area before cleaning.
Water Runoff	Excess water causing flooding or drainage issues	
		Ensure proper drainage. Avoid excessive water use.
Manual Handling	Back strain from moving equipment	
		Use trolleys for heavy machinery. Lift with proper technique.

Review & Updates

- This risk assessment should be reviewed annually or after any incident occurs.
- Any new hazards or risks will be updated with additional control measures.
- Staff must be trained on updated safety procedures and risk control policies.
